

WORK FURLOUGH

This program allows those sentenced to a term of probation, who must serve on-order jail time, the ability to maintain their employment or seek new employment. Those eligible must be incarcerated in the Yavapai County Jail, have verified employment within Yavapai County, and be granted Work Furlough consideration by the Court. If granted Work Furlough consideration, individuals are screened by the Work Furlough Coordinator, and final approval is given by the individual's supervising Probation Officer. If accepted into the program, employment, wages, and work schedules are verified prior to their first day of work. Individuals participating in the program are required to pay a daily fee to the Adult Probation Department that is equivalent to their hourly wage, or minimum wage if a student, multiplied by seven. Program participants are monitored by their assigned Adult Probation Officer while released from incarceration.
